SUGGESTIONS FOR GREAT WEDDING PHOTOGRAPHY

- 1. Be Glamorous** - This is the perfect time to splurge on a fabulous make-up artist and hair stylist. A professional stylist knows what looks best in photos. They will have you and your bridal party picture perfect in no time. Plus you will feel pampered by the professional.
- 2. Your Ideas Are Best** - There are magazines and websites full of ideas on how to decorate your wedding. Our best advice is having what you want! Remember, this is your day. Fill your venue with flowers and decorations that you love so the wedding will be a reflection of you. If you have an event planner, don't be afraid to suggest the things that you want to incorporate into your wedding.
- 3. Eliminate Clutter** - Try to keep the bridal suite or getting ready area free of clutter. It is difficult to have beautiful pictures of getting ready with bras, drinks, and loads of other things hanging around in the background. One simple solution is to use large plastic totes and throw everything into it. That way it can easily be moved out of the way when it is time for the photos of the bride getting ready. (This goes for the Groom as well.)
- 4. Light It Up** - Make sure that the rooms are well lit. Receptions with dark rooms may be romantic but they don't photograph well. DJs like dark rooms to show off their laser light show but this drives the camera crazy. Please keep this in mind when you plan your reception.
- 5. Well Planned Timeline** - Accurate time lines help everyone, including you, to stay more relaxed! Also, leave time in your day to just relax. Realize that most weddings do not run on time, and that is OK as long as you have planned ahead and added an extra cushion of time. Wedding photos take about 2-3 minutes per photo. Leave your photographer enough time to capture the parts of your day that mean the most to you. If you are having an outdoor wedding, schedule it at a time when there is soft light outside (usually about 90 minutes before sunset). This will make your wedding day pictures rock!
- 6. Inform Your Guests What is Expected of Them** - Let your guests know when and where photographs are going to be taken. That way they will be prepared for the important shots. Nothing is worse than a guest missing the shot because they were out having a smoke when they should have been standing for a photograph. It is not unusual for a Groomsman to forget his tie, shoes or socks. This can slow things down. Please encourage your guests to make a list of what they need to bring to the wedding and make sure they bring everything. Let your guests know how important the photography is to you. Ask them to please cooperate with the photographer so the photography doesn't delay the proceedings.
- 7. Event Guide** - We recommend an Event Guide who will identify people and objects we need to photograph. It is very helpful to us to have someone who will assist in identifying or gathering people for the photographs.
- 8. Have A Great Time** - Nothing makes a bride and groom look more gorgeous as when they are laughing, smiling, and enjoying the moments of their wedding day. Smile a lot and enjoy your wedding day!
